

# CORPORATE INTELLIGENCE SERVICES

Look to **The Strategic Consulting Group**, for in-depth intelligence to resolve complex challenges

Organizations need to be proactive in protecting their information, competitive advantage, brand, reputation, and intellectual property. Corporate intelligence is a significant business advantage that can deliver game-changing outcomes. The Strategic Consulting Group, has unparalleled knowledge in corporate data analysis and mapping with Not-For-Profit organizations, to Fortune 500 corporations and all levels of government.

Organizations are developing pools of operational, political, economic, social, technology, environmental and legal data. The ability to combine these pools into a data lake and analyze the complex data requires specialized skills and a well thought out, and carefully executed, approach to reach actionable:

- Competitive intelligence
- Identification of market weaknesses and business opportunities
- Deep level threat and risk analysis
- Extensive compliance analysis and reports

We tailor our corporate intelligence services to meet our client needs and management style.

We follow and adhere to internationally recognized standards adopted by thousands of organizations and all levels of government.

We embrace the tenets of honesty, clarity, consistency, and completeness to ensure open and effective communication between consultants and with our clients.

Get strategic, operational, and process improvements with measurable results, geared to your challenges, needs and schedule.
